"The future in mind: experimental evidence on the psychological challenges of poverty"

About CTRFPF

The Centre for Training and Research in Public Finance and Policy was set up as a long term research unit in the Centre for Studies in Social Sciences, Calcutta in 2011. This is a Ministry of Finance, Government of India initiative to promote research in economic and social policies through a better understanding of issues in public finance, public economics and public policy. Our policy findings are based on rigorous analysis, detailed empirical evidence and in depth institutional knowledge. We seek to disseminate our findings to a wide range of audiences to maximize their impact on policy both directly and by informing public debate.
