DIRECTOR’S NOTE

It is time for our Annual Report for April 2022 – March 2023 once again, and we are fortunate in having completed a year of intense academic activity in the last year that reflects credit on our institute and maintains its high standards of research, publications, projects, seminars and conferences.

The CSSSC celebrated the Golden Jubilee of its Foundation Day, 1 February 1973, on 2 February 2023. A day-long event was organised to felicitate all former faculty and staff of the CSSSC who could attend the programme. We are grateful to former fellow of the CSSSC, Professor Dipesh Chakravarty, Lawrence A. Kimpton Distinguished Service Professor of History, South Asian Languages and Civilizations, and the College at the University of Chicago for delivering a special lecture to mark the occasion.

Institutionally, the most significant development in this year has definitely been the creation of a budget head for the CSSSC by the Education Department of the Government of West Bengal. We are profoundly grateful to the Honourable Minister of Education, Shri Bratya Basu, and the Principal Secretary, Education, Shri Manish Jain, IAS, for their initiative and support in this matter. It is a historic development, as it is an outcome that puts the Centre on a firm footing regarding grant-in-aid, allowing it to put its woes regarding annual deficits occasioned by the former ad-hoc system behind once and for all.

The academic year also saw Appointment of Professor Saibal Kar as the RBI Chair Professor after superannuation of Professor Sugata Marjit. It is to Prof Kar’s credit that immediately following his joining the post, the RBI endowment was increased substantially from 4 crore to 10crores. The new agreement also envisages the implementation of courses on contemporary issues in Open Economy Macroeconomics, workshops, seminars and conferences every year under the aegis of the RBI endowment. We are also very happy to report the confirmation of five Assistant Professors: Dr Asha Singh, Dr Debdatta Chowdhury, Dr C Satish Kumar, Dr Souvik Mukherjee, and Dr Vibhuti Nayak in the past year.

The annual flagship Deuskar Lectures on Indian Culture and History were delivered on April 19 & 20, 2022 by Sundar Sarukkai, and were titled: ‘Human Centric Epistemologies and the Resistance to the Cognitive Empire’ and ‘Producing Epistemologies of the South : Sensing the Social’. The R.C.
Dutt Lectures were given by Prof. Tirthankar Roy on ‘Tropical Development: The Environmental Origins of World Inequality’ on August 30 & 31, 2022. Two endowed annual lectures conducted by the CSSSC are the Buddhadeva Bose Memorial Lecture, which was delivered on November 30, 2022 by the eminent poet and critic, Arvind Krishna Mehrotra and titled ‘True Confessions of a Literary Translator’; and the Tarun Chandra Dutt Lecture, which was delivered by Alapan Bandyopadhyay on ‘The Mind of the Bureaucrat’ on February 28, 2023. The Centre’s General Seminar series, as well as the CTRPFP and the JBMRC’s events, have continued throughout the year, hosting speakers and conducting programmes in person as well as on web platforms.

Pending issues that are still to be resolved remain. The most urgent of these are the anticipated approval of the ICSSR for appointment of faculty members; increasing the age of faculty retirement from 62 to 65 years; sanctioning of a building grant for repair and renovation of the CSSSC building, as well as funds for programmes celebrating the Golden Jubilee. Most importantly, the Board also needs to appoint the next Director of the CSSSC to the post as per regulations.

Last, but not the least, we have to echo our last year’s report and say that the implementation of the 7th CPC pay scale following the 2016 notification from the Central Government has still not been made operational. We are hopeful that the issue will be resolved soon.

RESEARCH PROJECTS AT THE CSSSC (FUNDED BY EXTERNAL AGENCIES)

The CSSSC has undertaken several academic research projects. Some of these are intended to augment the holdings in its archives and to organize academic events around these holdings and promote research. It also undertakes survey-based projects and training workshops with a view to developing research capacities. The inter-disciplinary character of the Centre and its faculty has meant that its intervention has been recognized as crucial in developing resources and facilitating research.

Completed Research Projects funded by external agency
1. Rosinka Chaudhuri - A project titled *Rammohun Roy: Reappraisal at 250* awarded by the Bangla Academy, the Publications Division of the West Bengal Government, has been completed and submitted. The project payment was received by the CSSSC in January 2022.

2. Rosinka Chaudhuri - Work on six booklets for popular consumption on Rammohun Roy for the WB HE Department has been completed and submitted.

5. Saibal Kar - Evaluation of Duare Sarkar, Government of West Bengal (Rs. 7 Lakhs)

On-going Research Projects funded by external agency
1. Trina Nileena Banerjee - Participant in ongoing research project: International Research Network on Postcolonial Print Cultures led by Rajeswari Sunder Rajan (New York University) and Neelam Srivastava (Newcastle University). In 2023, the network was revived by Laetitia Zecchini (CNRS) as the International Research Network on Postcolonial Print Cultures (IRNPPC) with funding from the CNRS for a period of 5 years, expanding and consolidating the initial PPC network by establishing institution-based collaborations between a diverse and global range of leading academic institutions and communities: the CNRS with two research centres (THALIM and ITEM); New York University and the University of Chicago in the United States; Jadavpur University and the Centre for Studies in Social
2. Rosinka Chaudhuri - Principal Investigator at CSSSC for *Decolonization the Disciplines and the University* (Project Principal Investigator: Mahmood Mamdani; Sponsoring Agency: Andrew W. Mellon Grant), a five-year grant involving five institutions worldwide, began in 2019 and currently comprises four institutes – MISR, Kampala, University of Ghana, Columbia University and the CSSSC. It has now entered its fourth year in 2022-23. A Mellon Seminar was organised among CSSSC Mellon participants at the JBMRC in October 2022.

3. Rosinka Chaudhuri - Principal Investigator in CSSSC for an **International Research Network on Postcolonial Print Cultures** (IRNPPC) which has received funding from the CNRS, Paris, for a period of 5 years. The participating institutes are: the CNRS with two research centres (THALIM and ITEM); New York University and the University of Chicago in the United States; Jadavpur University and the CSSSC in Kolkata, India; Newcastle University in the United Kingdom; the University of the Witwatersrand in Johannesburg, South Africa; and NYU-Abu Dhabi in the United Arab Emirates.

5. Rosinka Chaudhuri - Decolonization the Disciplines and the University

*Decolonization the Disciplines and the University* (Principal Investigator from the CSSSC: Rosinka Chaudhuri; Sponsoring Agency: Andrew W. Mellon Grant), a five-year grant involving five institutions worldwide that began in 2019. One of the five partners, American University, Beirut, has had to drop out for reasons outside of their control related to regional instability. The project continues with the remaining four institutes and has entered its third year in 2021-22. During the course of the year, a Cultural Studies Workshop and a Cultural Studies Institute was held online and successfully conducted. The editorial committee of the Cultural Studies component of the Mellon project selected the best Cultural Studies papers, and worked with the authors to edit and prepare them for publication.

The CSSSC’s faculty members Anirban Das, Maidul Islam and Prachi Deshpande are investigators, on *Decolonization, Disciplines, and the University*. Principal Investigator is Dr. Mahmood Mamdani,
6. Rajarshi Ghose - Primary Investigator (with Abhijit Bhattacharya and Tapan Paul), “Archives of Minority Pasts: Mapping Religion and Politics in modern Bengal” (MEAP-4-0096), awarded by Modern Endangered Archives Program at University of California, Los Angeles Library (Los Angeles). Total Project Value: USD 50000

8. Rajarshi Ghose - Co-Investigator (with Abhijit Bhattacharya and Tapan Paul), “Digitization of the Jatindramohan Bhattacharjee Collection” project, awarded by the University of Pennsylvania Library (Philadelphia). Total Project Value: USD 30000

9. Rajarshi Ghose - Co-investigator (with Professor Mahmood Mamdani, Columbia University as the Principal Investigator), “Decolonization, the Disciplines and the University” project, awarded by Andrew W. Mellon Foundation (New York).

10. Saibal Kar - National Human Rights Commission, Study on Functioning of AHTUs (Rs. 14 Lakhs)

11. Saibal Kar - ULBs in West Bengal: Finance, Jobs and Service Delivery (Rs. 10 Lakhs)

ACADEMIC ACTIVITIES OF FACULTY MEMBERS

Much of the vitality of the Centre’s academic life is supported and sustained by the research of its faculty members. This has been a distinguishing feature of the Centre’s academic life since its inception and has been instrumental in its exceptional inputs to the various disciplines it represents. The Centre runs a regular faculty series seminar and reading group that encourages lively and periodic intellectual exchanges among faculty members. It encourages faculty members to collaborate with other institutions in India and overseas to organize joint seminars and workshops. It allows faculty to share their research interests and expertise and undertake teaching and supervision in other institutions in India and overseas. Additionally, the faculty assumes important administrative responsibilities in connection with academic programmes and research activities in the Centre.

The following section details the current research and teaching activities as well as individual research projects and administrative responsibilities undertaken by the faculty. Details of research interest and academic publications of the CSSSC’s faculty, including those of recently appointed faculty members, may also be found at the CSSSC’s website.

Completed Research
2. Completed a second paper as part of a larger project on scenography in Bengali theatre. The broader project, which I plan as a book, is tentatively titled “The Art of Staging: Spectacle, Realism and the Visual Arts on the Calcutta Proscenium”.

The completed paper deals with the 1960s and is titled “Staging Revolution: Utpal Dutt’s Kallol (1965) and the Question of ‘Spectacular’ Aesthetics in Calcutta’s Leftist Theatre Practice”.

This section of the paper is slated for the publication of a volume titled In Search of the Left through Theatre, Activism and Auto/ Biography (edited by Bishnupriya Dutt and Silvija Jestrovic) to be published by Manchester University Press as part of its series Theatre: Theory, Practice, Performance. This volume is part of a project called “Cultures of the Left” jointly conducted by SAA, JNU and the University of Warwick. Forthcoming in 2023.
3. Completed essay titled “New Masculinities and Authoritarian Aesthetics in Contemporary Bombay Cinema” to be published in a volume on “Indian Cinema and Human Rights” edited by Ruchira Goswami (National University of Juridical Sciences, Kolkata) and Professor Adam David Dubin (New York University, Madrid Campus). Final draft with citations due in April 2023.
4. Essay titled “Scenes from the Famine: Chittaprasad, the IPTA and the Art of Visual Reportage” initially planned for an edited volume and presented at a conference in Guwahati this year. Aiming to submit to a Performance Studies journal.
5. Completed and submitted a manuscript for a short monograph titled Embodying Suffering: Political Performance and Gender in Contemporary Manipur (40,000 words) for MAKAIAS. Uncertain about publication prospects.

2. (final stages) The political economy of agrarian change and caste: A case study of Godavari delta.

Forthcoming Research Plans
1. By-Pass Urbanism in Kolkata. This paper project engages with the changing nature of socio-spatial account of EM Bypass after independence, more particularly after 1990s. This paper critically evaluates questions such as, the existing literature pertaining to urbanisation within the purview of sociology, what role does the state played in unpacking the category of urbanization vis-à-vis with communities in and around? How agriculture, industry and real estate are entangled with each other, in other words the circulation of labour, caste and capital on this stretch.

2. Locating the Caste in the History of Sociology in Bengal. This paper is premised on the hypothesis that the absence of caste question in the Bengal is the result of the absence of sociologists in public space. Dwelling onto it more, questions such as the sociologists and their concerns at that time, during the early independence. More particularly whether these concerns are in anyway connected to the caste question, if, in which way, if not why? etc would be addressed. This work will be primarily be done by reading both primary and secondary literature pertaining to four sociologists- RK Mukherjee, DN Majumdar, BN Sarkar and NK Bose.

Completed Research: Gendering higher education in the context of gender sensitization mechanisms and practices in Indian Higher Education Institutions. The objective of the research was to understand how the concept of gender sensitisation works in HEIs, in the context of the POSH laws in Workplaces and in HEIs, the Vishakha Guidelines, the Verma Committee Report, and the mandatory institution of ICCs in HEIs. It located the foundational idea behind Indian education policies within the larger framework of a global approach to gender sensitization of education. It took into account the relevant reports and studies of HEIs in India within the context of gendering higher education and linked them with conversations/interviews taken with persons associated in some capacity with HEIs in Kolkata and surrounding areas. The research attempted to establish that a flawed educational philosophy is ill-equipped to address the realities of a very-gendered education system that India runs. Research findings were published as a book chapter (details provided under publication).

Forthcoming Research Plans: A critical engagement with women-initiated Alternative Dispute Resolution mechanisms and grassroots level spaces for legal advocacy as models for understanding feminist interventions in legal jurisprudence in India. The primary sites of study are para-state and non-state community-level mechanisms as Nari Adalats, Women’s Shalishi, Women’s Jamaat, Women Gram Sabhas which, together with state-initiated mechanisms like Mahila Samakhya, Family Courts, Women’s Cells, will be contextualised within the larger trajectory of women’s political activism and legal scholarship in India. Women-initiated para-legal grassroots mechanisms will be studied as a model for feminist governance, while also be problematized as sites which reflect the complex location of women at the crossroad of individual liberty, human rights, and community rights.

Forthcoming
- *Feminist Inscriptions: Response beyond Reaction*, a co-edited (along with Ritu Sen Chaudhuri) book – final manuscript submitted last year to State University of New York Press. Both the review reports are positive and currently the authors are making corrections to be incorporated.
- Submitted to the publisher, A co-edited book *Theorizing Practice, Practising Theory* eds., Anirban Das, Birgit M. Kaiser, Kathrin Thiele. The review of the proposal is very positive.

On-going Research
- Working, as part of the Mellon project, on the works of Debiprasad Chattopadhyay (1918-1993). Chattopadhyay, a professor in philosophy in a college in the city of Kolkata, and later working with national research institutions like the Indian Council for Historical Research and the Indian Council for Philosophical Research, had an intimate association with the leftist cultural and intellectual movements. He had been a polymath of sorts, writing on sexuality, almost singlehandedly editing the journal *Indian Studies Past and Present*, writing regularly for children (both fiction and non-fiction) in periodicals, and trying to produce a pre-history and a history of ‘Science in India’. Most importantly, he worked on the Charvaka- Lokayata system of philosophy in India. He read into orthodox texts of philosophy certain elements of a materialist philosophy. Chattopadhyay uses the category materialism in a particular Marxist sense. He relates this to the notion of science and scientific thinking. Thus, he is simultaneously in search of ‘scientific elements’ and ‘materialist elements’ in Indic thinking. He studies the dominant strands of philosophy and certain other forms of thought in the Sanskritic tradition to bring out these elements. In
my work, I stress the many meanings of the decolonial emerging from such an enterprise. The two questions through which I move are the following –

Is the enunciation of Lokayata through nastika, materialism and science a colonial move of reading Indian texts through the lens of the west? Is such an enunciation a decolonial move against the orientalist construction of spiritual India?

- Co-editing a Bangla collection of essays in honour of Raghab Bandyopadhyay, named Bratyojaadukotha.
- The second edition of Banglay Binirman/Abinirman (2007) is about to be published. The book was reprinted in 2008 and been out of print for a few years.
- Working on a book on abortion and feminist ethics. Two of the intended chapters have already been published in edited volumes. Currently writing a chapter on the biopolitical processes at work in the construction of the foetus and on the general import on feminist ethics.
- Working on a book on science and scientism in the postcolonial context. This will use materials I have already published and a large amount of new writing. Some of these have already been presented in conferences and are now in the process of writing in the form of papers.
- Working on the following Articles –

"Embodied Knowledges: An Intimate Critique of Positional Objectivity and Standpoint". This paper tries to clear the epistemological ground for my notion of embodied knowledges with critical engagement with the notion of 'positional objectivity' (posited by Amartya Sen) on the one hand and with that of 'situated knowledge' (a feminist epistemological position) on the other.

- “The Many Ways of Thinking the ‘Non-Human’”. The act of thinking beyond the human has been operative in many ways in recent humanities and social sciences. Two of the most important strands, each of which affects the other in constitutive ways, come respectively from ‘science studies’ and from ‘theory’ in a general sense. This paper tries to trace the differences in the dynamic of thinking associated with these two vantage points.

- “The Science Question in Poststructuralism: Ethics and Politics of the Real”. The paper deals with the paradox in the pursuit of science that tries to bring together a form of empiricism with reason. It tries to analyze a fundamental opposition between the inductive mode of reasoning active in empiricism and the irrefutable logic of deductions of Reason. In doing this, the paper has to address the question of how faith and (scientific) knowledge remain intertwined. Questions of the originary technicity of being human and
its relations to the generality of the structure of writing and the trace-structure have to be addressed in the process.
- “Unhinging the State and the Nation: (Im)Possibilities”.

1. *Optimal Fiscal and Central Banking Policy in a Finite Horizon Macroeconomic Model*
   The study aims at devising fiscal and banking policy for achieving certain goals in a finite horizon macroeconomic model for India. The objectives include controlling inflation, reduction in the unemployment rate, and attaining a specific target for the level of GDP, say 5 trillion or a target rate of GDP growth of 10%. Some of the variables which policy makers regulate include repo rate, government expenditure and public investment. The optimization problem is solved through a dynamic programming algorithm where policy variables act as controls.
   Specifically in the Indian context the optimal policy paths obtained depict that the target of achieving $5 trillion economy in a five year time could be met at the cost of unrealistic values of the policy parameters. Also, when the policy variables are constrained to take values in realistic ranges, achieving this target would lead to economic stability in intermediate period.
   The first draft was presented at the Symposium on Stochastic Control and Application on the occasion of the superannuation of Prof. Mrinal K. Ghosh of IISc, July 25, 2022 by my co-author.

2. *Estimation of Panel DYMIMIC Model – Theory and Application*
   This is a generalised method for estimation of a DYMIMIC Model with an application to the informal sector of India. We worked on a DYMIMIC Model for the estimation of the informal sector in India. This was submitted to a leading journal of the field. After two revisions the paper was rejected. Then after consulting with my co-authors it was decided that we would work for a generalised method of estimation for panel DYMIMIC Model which is not available in the literature. This
will be useful for validating results from economic theory in a cross country scenario or for the sectors of an economy.

Was submitted to Economics and Biology. After first referee report with some comments received and have been asked to revise accordingly and resubmit.

Forthcoming Research Plans
1. An extension of our macroeconomic policy model for finite horizon for some other emerging market economies which are included in G-20. This will be useful for robustness check for our model.
2. A comparative study of various methods of identifying finance constraints faced by firms vis-a-vis my earlier work using stochastic frontier analysis.
3. An analysis of evolution of capital structure of Indian firms since the economic reforms were initiated in 1990s.

- “Remaking Marathi: Language History and V. L. Bhave’s Maharashtra Saraswat, forthcoming, April 2023, in the Oxford Handbook of Modern Indian Literatures, eds. Ulka Anjaria and Anjali Nerlekar. FORTHCOMING APRIL 2023
This is an essay on Maharashtra Saraswat (1894) by Vinayak Lakshman Bhave, the first comprehensive history of Marathi literature. In this chapter, I revisit the making of Bhave’s pioneering history and narrativization of the Marathi literary corpus for literary debates and analysis over the twentieth century, and the making of Marathi literary modernism. I examine Bhave’s engagement with the idea of literariness through the category Saraswat and how it enabled an expansive, chronological archiving of Marathi literature. In addition, I show how his framing of Marathi’s evolutionary history, and the overarching themes of authenticity and rootedness in particular, are key to understanding the endurance of these concerns in the contemporary Marathi literary and political sphere.

- Book-length work on Durga Bhagwat (1910-2000), folklorist, scholar of language, popular culture and creative writer, responsible for a vast number of translations from Pali, English and Sanskrit into Marathi. ONGOING.
  In 2022 I did several rounds of archival research and interviews for this book project. Over the last two years I have narrowed her down as a figure through whom I could interrogate the Marathi twentieth history, as it were, and debates within history, language, sociology, anthropology, folklore and religious studies in western India. I have collected correspondence and records of Bhagwat’s associates and professional life. I have drafted “Disciplinary Riddles: Durga Bhagwat
and an outline of Indian Folklore,” an essay interrogating Bhagwat’s position within the university and the disciplinary history of anthropology and folklore in 20th century India, and without. For the biography, however, I have yet to locate Bhagwat’s research diaries, which are in the possession of one of her biographers, and her correspondence with a fellow student while on fieldwork in Central India over the 1930s. My work plans in 2023 involve mainly recovering this material for the biography, and finishing the essay.

- Co-editor of *Cultural History of South Asia, Vol. IV*, with Nandini Chatterjee, for Bloomsbury Academic. Writing the Introduction

- Chapter for *Cultural History of South Asia, Vol. V*, for Bloomsbury Academic on “Languages, Literatures and Performance in Colonial India.”

- Potential book on a death in Arcot in the early 19th century? I spoke about this last year, and I’m still in the stage where I’m trying out the style of a narrative popular history and exploring whether this project is doable. In 2023 I hope to make a decision one way or another.

- Annales Maths paper
This paper examines a range of mathematical texts from nineteenth-century western and southern India in the Marathi and Tamil languages. These materials were generated in the course of pedagogy, scribal, and artisanal work. They include elementary arithmetic primers, number tables, accountancy manuals for use in revenue administration and commerce, texts compiling the nature of practices involving artisans such as sculptors and carpenters, and collections of arithmetic problems. Some are in manuscript, and some are printed and lithographed texts. In some elementary arithmetic is intertwined with the basics of the alphabet and grammar. We try to historicize the local worlds of practice in which they were circulated and transmitted, as well as the grounds for comparison that may emerge between these contexts. The category of ‘practice’ is intended to flesh out the ways in which numbers and measurements, in particular, were engaged in pedagogy and artisanal work. The measuring of land, labour, taxes, and produce from grain to gold is key to social relations, and we explore how such mathematical texts help illuminate measuring as a politically mediated activity, and the ways in which local caste contexts, but also language and vocabulary, structured these practices and practitioners. One of the features we hope to highlight is the deep imbrication of language skills and mathematical skills in pedagogy and practice.

- Hindi’s Shadow: Bhojpuri and Census in Bihar paper submitted to Hetukar Jha Memorial Volume to be published by Routledge.

Forthcoming Research Plans
- On Bhojpuri’s Folklorization: This paper will be a contribution to the proposed Golden Jubilee Volume of CSSSC. This paper would take us through the process of ‘folklorization’ of Bhojpuri that ran parallel to its census classification as a dialect/mother tongue variety of Hindi. Recovered and codified as a linguistic lore, Bhojpuri along with several dialects were placed within the discipline of folklore. The ideological underpinnings of this discipline played an important role in conceptualizing Bhojpuri. The paper will discuss some of these aspects by critically analyzing the works of Bhojpuri folklorists among others. Bihar Rashtrabhasha Parishad, Bhojpuri Academy Patna will be analyzed as institutional and discursive spaces which played a key role in the Folklorization of Bhojpuri.

- Fieldwork in Eastern Uttar Pradesh (Bhojpuri speaking region of UP):
In May 2022, I visited two villages: Jindopur in Azamgarh district and Babatpur in Banaras as part of my plan to expand my inquiry from women’s songs to women’s reading and writing practices and how they articulate their experiences of formal education or ‘padhai- likhai’. (I am currently transcribing my recordings and planning a few telephonic follow-up interviews. It is my intention to capture the educational experiences of Bhojpuri women who were first-generation school-goers from lower-to-middle castes enlisted as OBCs. It should be noted that the Bhojpuri region (of Bihar and Uttar Pradesh) witnessed a significant increase in the number of first generation women literates from among the OBCs in the past few decades owing to certain socio-political shifts (Mandal mobilisation being one of them). The women whom I interviewed in Jindopur and Babatpur, nearly twenty of them, were in their twenties or early thirties; mostly married with fewer children than their unlettered mothers. Thus, formal schooling as a significant process and experience among these women has a continuous history only from the 1990s. (1990 ke
baad pichhdi jaati ki padhi likhi mahilaon ki ek peedhi taiyar huyee hai). Unlike their mothers and grandmothers, the first-generation literates don’t have songs for every occasion nor do they sing as frequently. Further, unlike previous generations, these women try to switch from Bhojpuri to Hindi and are embroiled in persistent struggles to speak ‘proper’ Hindi, especially when they meet an educated outsider. Stories of aspirations and disappointments are shaped by their experience of formal education. (For example, koi shahari padha likha vyakti mil jaaye to usase ye jaanane ki koshish karti hai ki unko kaun si naukri lag sakti hai, ya unhen kaun si parikhshayen deni chahiye (agar unki umra 30 se neeche hai) taaki unhen koi sarkaari naukri lag jaaye.)

Since I could only interview women of a particular caste in my previous field engagement, this year I have made some connections in Jogia Janubi Patti, a village in Deoria district which is numerically dominated by Koeris. I will be conducting fieldwork in April 2023.

It is my larger aim to piece together a gendered sociological account of education in the Bhojpuri-speaking region with the help of long, in-depth conversations with women. I wish to understand how ‘education’ has engendered the lives of backward caste women in recent times and how women conceive change in their individual and collective lives through education. I hope to translate these efforts into academic papers and eventually into a readable, engaging book in Hindi.

M.PHIL IN SOCIAL SCIENCES

[Conducted by Centre for Studies in Social Sciences, Calcutta (CSSSC) and affiliated to Jadavpur University, Kolkata]

The Centre runs a two-year M.Phil programme in Social Sciences that enjoys formal affiliation with Jadavpur University, Kolkata. It is one of its kind in the country as it is a multidisciplinary programme that provides students with a selected introduction to key theories and debates across different disciplines in the social sciences. The objective is to equip young researchers with a general grasp of the main intellectual concerns of social science research and a strong grounding in interdisciplinary methods.

The M.Phil programme has two parts: one-year teaching-course (semesters I and II) and one-year research-work for the writing of dissertation (semesters III and IV). In the first year, students are required to study four courses (one compulsory and three optional) and sit for an M.Phil Qualifying Examination. Only after a candidate clears the Qualifying Examination is s/he allowed to pursue with dissertation. In the second year, students are required to make three presentations in the presence of faculty members, presenting their work-in-progress.

Report for period from April 2022 to March 2023

In the M.Phil in Social Sciences 2022 session, fifteen (15) students commenced their research work and presented their 1st presentation on 1st and 2nd June 2022. Further, the students presented their M.Phil. pre submission presentation on 2nd, 3rd, and 4th November 2022.

THE DOCTORAL PROGRAMME

Since its inception, the Centre for Studies in Social Sciences, Calcutta, has accepted scholars wishing to pursue their Ph.Ds with specific faculty advisors. As the Centre could not offer any degree, the faculty of the Centre could only co-supervise a student who had to be registered with a university. Since 2010, the Centre launched its own Programme offering Ph.D in Social Sciences affiliated to Jadavpur University.

Applicants may now choose from any of the following areas of work: Cultural Studies, Development Studies and Environmental Studies, Economics, Geography, History, Political Science, Sociology / Social Anthropology and Women Studies. Selected candidates take course-work (if necessary) and conduct research under the supervision of a member of the CSSSC faculty.

The Centre currently has 78 students enrolled in its Ph.D Programme of whom 6 are receiving Junior Research Fellowship and 9 are receiving Senior Research Fellowship from the UGC.

Ph. D. Course Work: - 1st Semester Examination, 2023 held on 27th March 2023. Sixteen (16) scholars took the examination and all sixteen (16) passed.

Hitesranjan Sanyal Memorial Archives

The archives of the CSSSC, this year, achieved an important landmark of thirty years in service of open access and pedagogy. Since 2016 it is functioning from two locations, from the main campus of the office at Baishnabhagata Patuli Township and from the Jadunath Bhavan. As a result, the same number of archive staff are continue working from both locations but main focus of the main campus is collection development and project management and user access is provided from both locations.

Research projects funded by outside agencies: Report for the period from 1st April 2022 to 31st March 2023:

Completed:
The Endangered Archives Programme of the British Library funded project “Pre-modern Visions and Modern Frames: Digitisation and conservation of manuscripts and books in Bardhman and Nadia districts” (project code EAP1031) has almost completed. The project added copies of Jangipur Sambad, a regional newspaper from the district of Murshidabad that started publishing by Saratchandra Pandit (Dadathakur), several manuscripts and pamphlets and books in Bengali, Bhojpuri, Hinidi, Odia, Nepalese and Urdu languages to the open access archive. The archive is expected to be live by the middle of 2023.

Abhijit Bhattacharya and Dr. Rajarshi Ghosh are working as investigators of the project with active support of Mr. Tapan Paul, Mr. Gopal Adak and Mr. Sourav Mandal.

Ongoing:

1. Archives of Minority Pasts: Mapping Religion and Politics in modern Bengal: The Modern Endangered Archives Programme of the University of California – LA supported the application for the project with an aim to digitally retrieve and store documents related to Matua mobilization in Bengal, Birbhum Barta, a regional newspaper from the district of Birbhum, A huge body of literature of Bengal-Muslim intellectuals published by the “Natun Gati” press and a set of publications related to the Furfura Sharif Sufi movement.

Rajarshi Ghose, Abhijit Bhattacharya and Tapan Paul are leads of the project.

2. University of Pennsylvania – CSSSC collaboration for reformatting of the collection of manuscripts and prints from the Jatindra Mohan Sangrahashala of the National Council of Education Bengal: Jatindramohan Sangrahasala, one of the most important collection of manuscripts and prints from the Sylhet – Kachhar region, collected by
Professor Bhattacharya and transferred to the NCE – Bengal. The collection needed urgent attention for digital retrieval, both for long-term preservation and dissemination. The CSSSC and NCE-Bengal signed an MoU for the purpose and the University of Pennsylvania Libraries and the South Asia Center of the University of Pennsylvania supported the project both financially and for digital preservation. The project expected to digitize around 6000 Bengali and Sanskrit manuscripts and around 4000 volumes of printed newspapers and periodicals.

Abhijit Bhattacharya and Rajarshi Ghose are project leads at the CSSSSC.

3. **Pedagogy and scribal culture in pre-colonial Bengal: Digitization of 2500 manuscripts from Nabadwip Sadharan Granthagar:** The South Asia Material Project and Department of Public Libraries, Mass Communication and Adult Continuing Education Services of the Government of West Bengal collaborated for this important reformatting project with a scope of digitizing 2500 manuscripts from the small-town library in the district of Nadia. The project team completed the task of digitization in the month of March 2023, however, writing metadata will take another five to six months.

Abhijit Bhattacharya and Rajarshi Ghose are the coordinators of the project.

**Forthcoming:**

A collaboration with Columbia University in the city of New York and the CSSSSC has been initiated for archiving of anti-caste literature from the public and private collections in the states of Maharashtra, Tamil Nadu, Karnataka, and Uttar Pradesh. ARCADIA is expected to fund the project initially for five years.

**Collaborations**

**South Asia Material Project (SAMP)**

The CSSSSC continues to be members of South Asia Material Project one of the most effective long-term collaboration of the institution. In the recent run of change in SAMP leadership, Dr. Rajarshi Ghose continuing as the faculty representative to the SAMP Executive Committee to serve a two-year term from 2022 – 2024. Abhijit Bhattacharya elected to the SAMP Executive Committee for 2023 – 2025 and elected as Chair of the SAMP for a 2+1 year term.

**South Asia Open Archives (SAOA)**

The CSSSSC is also a member of the SAOA, working closely with SAMP but with an aim of open access. As a contributing member of SAOA, CSSSSC too started making its archives through the JSTOR open access platform and two major newspapers are already curated on that platform and
several other documents to be uploaded on the platform in coming years. Abhijit Bhattacharya representing CSSSC to SAOA and presently serving a three-year term as the SAOA Executive Committee member for 2021-24, also he is the Chair of the Funding Working Group of the SAOA.

CSSSC Library
The Library continues to serve the scholastic community as avidly as ever. Scarcity of fund could not restrain the Library to introduce new edge technology to meet the demands of the changing scenario of library services. There is a noticeable change in the information seeking behaviour of library users because of the pandemic. The Library is able to cope up with the new challenges with a zeal to provide effective information service. This made Centre’s Library a leader in the field of social sciences information service. The Library uses KOHA software to host its catalogue online that runs on the basis of a self-implemented, real–time processing system.

Books
During the financial year 2022-23, the Library purchased 119 new titles and received 338 titles as gift. Most of these books were donated by the faculty members, visitors, and projects. Prof. Partha Chatterjee had donated his book collection to CSSSC Library.
Periodicals and Newspapers
The Library subscribes to about 18 Indian print journals and 4 online resource-bases along with 12 leading newspapers of the country. On this note, the Library is thankful to ICSSR-NASSDOC consortium for creating an online resource access portal for the ICSSR institutions [https://nassdocreresources.remotexs.in](https://nassdocreresources.remotexs.in). This remote access portal enabled the scholastic community to get off-campus access of all the e-resource on 24x7 basis.

Membership
Apart from the regular students, staff and the faculty; 17 non-borrowing members were added to the existing client-base and 16 members were provided temporary reading facilities for 10 days to 3 months. The Library also provides information service to affiliated “international” scholars of the Centre.

Footfall
As per records, 399 users have consulted the Library resources excluding the faculty and other staff members of the Centre.

Library at Jadunath Bhavan
Since reopened on 10th August 2016, the library at Jadunath Bhavan has started serving the users from the very next day. JBMRC Library has a rich collection of books and reading materials mostly donated by eminent scholars from all over the world. JBMRC Library has more than 20,000 books and periodicals not only in English but in many other Indian languages such as Bengali, Oriya, Assamese, etc. The JBMRC Library has a good collection of printed materials published in French, Urdu and Tibetan, and many other famous languages.

Footfall
JBMRC Library not only serves the institutional scholars but non-institutional users also get access to the resources of this Library. Apart from Centre’s academic and non-academic staff, more than hundred users have availed reading room facilities and accessed JBMRC Library resources.

Ongoing Activities for Modernization
A set up for fumigation of books and documents was created at JBMRC with financial assistance of Prof. D.C.V. Mallik. Expert advice was provided by Victoria Memorial Hall’s restoration team and Dr. Sumita Seal of West Bengal State Archive.
Dr. Rajarshi Ghose, from his Mellon Project’s research grant, had procured a high-end desktop computer for JBMRC Library. That computer started working as the new Koha server of JBMRC library. Mellon Project had also supported backlog processing of JBMRC library. Three of the major scholar collections – (1) Hitesranjan Sanyal collection donated by Monoswita Sanyal, (2) Naresh Guha collection, and (3) Tapan Mitra collection – were processed.

The online public access catalogue (OPAC) of JBMRC Library is made accessible off-campus under jbmrclibrary.cesscal.org during working hours and creation of records for the electronic catalogue is in progress.

Processing of Bengali book of Ashok Mitra collection was complete and the books were arranged in the wooden book cases of ground floor library room.

**Achievements of Individual Library Staff**

**Activities of the Library**

1. The Library organized an online training programme on CMIE ProwessIQ Workshop on 10th August 2022 and 20th December 2022 through ICSSR-NASSDOC consortia.

A small group of about eight master degree students of Assam Agricultural University visited CSSSC Library on 10th February 2022 along with their professor.
The Centre for Training and Research in Public Finance and Policy (CTRPFP) was set up as a long-term research unit in the Centre for Studies in Social Sciences, Calcutta in 2011. This is a Ministry of Finance, Government of India initiative to promote research and training in public finance, public economics and public policy. CTRPFP’s objective is to establish itself as an authoritative research unit on public finances, tax and welfare policy, tax law, education, inequality and poverty, pensions, productivity and innovation, consumer behavior and the evaluation of policies designed to promote development in poorer countries.

Significant activities have taken place at the JBMRC in the last academic year, with a major project to create a web-resource, several seminars and annual lectures, and the creation of creative merchandize to strengthen its financial resources. The auditorium has been rented out for several events to various organizations and institutions, and has generated some revenue. The auditorium continues to be a favoured hub for academic and cultural events in the south of the city. Scholars visit the archive and library regularly. The room on the ground floor that used to house Jadunath Sarkar’s library has been filled with cupboards and library books, and tables and chairs for reading. Below are the important events that were held over the course of the academic year 2022-23:

1. On April 13, 2022, the 2nd Tarun Chandra Dutt memorial lecture was delivered by Prof. Anup Sinha, retd faculty of Indian Institute of Management, Kolkata on the topic “Sustainable Development: An Impossibility?” This memorial lecture had not been held for two years due to the Covid-19 pandemic, and it was held a bit later in the year in order to facilitate a well-attended, in-person lecture.

2. On 27-28 May, 2022, an international conference in collaboration with the University of Chicago, titled “The Many Worlds of Rammohun Roy” was held at the JBMRC, to commemorate the 250th anniversary of the social reformer and thinker. Participants were from all around the world and included Dipesh Chakrabarty, Tanika Sarkar, Milinda Banerjee, Rajarshi Ghose, Rosinka Chaudhuri, Brian Hatcher, Kunal Chakrabarty, Partha Chatterjee, Gautam Bhadra, Tapati Guha-Thakurta, Rahul Govind, Thomas Newbold, Sukanya Sarbadhikary, Nazmul Sultan, and Sudipta Sen.

3. With a grant under the ICSSR’s OH-31 grants programme, the JBMRC built a website, [http://religiousarchitecturebengal.cssscal.org](http://religiousarchitecturebengal.cssscal.org) between June and November 2022. This is a state-of-the-art web-resource of Dr. Hitesranjan Sanyal’s archive of nearly three thousand photographs of Bengal’s temples, which his family donated to the CSSSC after his death. This website was designed by Sujaan Mukherjee. Two research assistants, Atmajit Mukherjee and Chayana Mondal, worked with the archivist Kamalika Mukherjee to create extensive metadata on each of the photographs and the features of the temples, to enable scholars using the website to search by various keywords.

4. This web-resource was inaugurated on 19th November 2022. On this occasion, a day-long seminar on “Religious Structures & Regional Traditions in India: New Directions in Architectural, Social, and Cultural History,” was held at the JBMRC auditorium. Scholars working on the art, architectural and religious history of different regions in India presented papers in the seminar, and
a detailed walk-through of the website was also conducted. Speakers included Gautam Bhadra, Varuni Bhatia, Manu Devadevan, Parul Pandya-Dhar, Sukanya Sarbadhikary, Pushkar Sohoni, Sujaan Mukherjee, Kamaliya Mukherjee, and Prachi Deshpande.

5. On 28th November 2022, Arvind Krishna Mehrotra, poet, translator, writer and critic delivered the Third Annual Buddhadev Bose Lecture, titled “True Confessions of a Literary Translator.”

6. On 1 December, 2022, A webinar was held on “Bengal’s Religious Architecture: Documentation, Archival and Scholarly Legacies,” featuring a discussion between Dr. Pika Ghosh, visiting associate professor at Haverford College, USA, and Amit Guha, an independent researcher associated with the Bengal Heritage Foundation, UK, moderated by Prof. Tapati Guha-Thakurta, Honorary Professor, CSSSC.

7. On 11 January 2023, Prof. Partha Chatterjee, Honorary Professor, CSSSC, read from his new play Bener Meye, based on the 1919 novel by Haraprasad Sastri, at the JBMRC auditorium.

8. On 28th February 2023, Shri Alapan Bandyopadhyay, former chief secretary, Bengal, delivered the Third Tarun Chandra Dutt Memorial Lecture, on the subject, “The Mind of the Bureaucrat.”

9. On 6 April, 2023, Shri Arun K. Grover, Honorary Professor, Punjab Engineering College, delivered a lecture on “The Scientific Heritage of North West of India.”

10. The JBMRC released an Exhibition Book for the Twin Sisters with Cameras exhibition for sale, that had been held at its premises from 24 February 2022 to 31 March 2022 of the photographic oeuvre of the twin siters, Debalina Mazumder (1919 -2012) and Manobina Roy (1919 - 2001). This book was designed by Sujaan Mukherjee, with inputs from Kamaliya Mukherjee and Anuja Mukherjee.

11. An Archive Occasional Paper, No. 9 in the series, titled Hitesranjan Sanyal and the Histories of Bengal: An Intellectual Biography by Debjani Chakrabarty, was printed in June 2022 and put up for sale. Previously this had only been available in PDF format.

12. A set of postcards and a notebook featuring photographs from the Hitesranjan Sanyal photographic archive were also produced for sale as part of the Bengal Temples project.

13. The JBMRC released a desk calendar for 2023. As is the practice every year, we featured images from the CSSSC Archive. This year’s theme for the desk calendar is Kolkata's Durga Puja, which recently entered the UNESCO's list of Intangible Cultural Heritage of Humanity. The project preparing the dossier for the UNESCO application was based at the JBMRC in 2018-19, and a large archive of photographs, oral histories, publicity materials, media reports and research notes on the contemporary Durga Puja of Kolkata is housed here. Using images from this archive, this calendar celebrates the distinct artistic wave of “art” or “theme” Pujas that have created a new
genre of public art in Kolkata. The repertoire of Durga imagery showcases this changing artistic history from 2002-2022. The images and surrounding installations for every month of the year take us to everyday sites in different Puja locations across Kolkata, charting new maps of festival touring and art-viewing in the city.

14. Beautiful sets of postcards and an elegant notebook featuring photographs from the Hitesranjan Sanyal collection, designed by Sujaan Mukherjee, were also printed and made available for sale.

All in all, the JBMRC had a very active and eventful year.
